

PFT Series - AC High Voltage Dielectric Test Set

0 - 30 kV AC Power Frequency AC Hipot

The **PFT-301CM** and **PFT-301CMF** are from our popular PFT Series of field portable AC hipot test sets. These hipots provide continuously adjustable AC voltage used for a pass/fail, AC over-voltage withstand test on vacuum bottles. The PFT Series offers the most field portable, affordable, and easiest to operate AC hipots at this voltage and power. For bench-top requirements see the **ABT Series**. Testing loads that require higher power, see our **ALT, FPA, HPA and PAR** lines of AC dielectric test sets.
